SUMMARY

Full Stack Web Developer with hands-on experience building responsive, production-ready web applications — from pixel-perfect UIs in React & Next.js to robust server-side logic with PHP and MySQL. I leverage modern AI tools to accelerate development workflows, ship faster, and maintain higher code quality. Passionate about adopting emerging technologies and solving real-world problems through clean, scalable code.

PROJECTS

CodeSphere – Developer Portfolio & Networking Platform

2026 – Present

[PHP] [MySQL] [HTML5] [CSS3] [JAVASCRIPT]

→ Built a developer networking platform with user authentication, OTP password reset, profile customization, project & skill CRUD, resume upload, profile image upload, dark mode, secure account management, and MySQL database integration using PHP, MySQL, HTML, CSS, JavaScript, and Bootstrap.

<https://codesphere.wasmer.app/> → CodeSphere

CyberWorld — Cyber Cafe Service Platform

2026 – Present

[Next.js] [TypeScript] [Tailwind CSS] [REST API]

→ Engineered a Next.js and TypeScript platform for real-time service and document checks, reducing repeat customer visits and saving staff time

→ Built a REST API layer for live data synchronization and is currently expanding the platform with advanced booking and automated notification features.

cyberworld-nine.vercel.app/ → CyberWorld

IDDO WEB — Modern Business Website

2025

[JavaScript] [HTML5] [CSS3] [Figma]

→ Developed a responsive website using HTML, CSS, and JavaScript by converting Figma designs into clean, functional code. Ensured design accuracy and cross-device compatibility.

<https://theyashcode.github.io/iddoo-website/> → IDDO Web

SkyCast— (JavaScript API Project)

2025

[JavaScript] [HTML5] [CSS3] [Figma]

→ Weather application integrating API to fetch and display real-time dynamic data.

<https://theyashcode.github.io/skycast-api/> → SkyCast

Office Wali Chai — Brand Website

2025

[HTML5] [CSS3] [PHP] [MySQL]

→ Self-initiated project — independently designed and developed a complete brand website from scratch including structured service sections, responsive layout, and a PHP + MySQL backend for order and contact form handling

<https://theyashcode.github.io/office-wali-chai/> → OfficeWaliChai

SKILLS

Frontend

HTML5, CSS3, JavaScript, React.js, Next.js, TypeScript, Tailwind CSS, Bootstrap

Backend

PHP, MySQL, REST APIs

Tools & Design

Figma, Git, GitHub, VS Code

EDUCATION

Bachelor of Computer Applications

IGNOU

2024 – 2028 (Pursuing)

Senior Secondary (12th)

CBSE Board

Secondary (10th)

CBSE Board

INTERESTS

I enjoy working with new technologies and solving real-world problems through practical, efficient solutions. I also have a strong interest in prompt engineering and leveraging AI tools to improve development efficiency...

ACHIEVEMENTS

- Delivered 6+ production-ready web projects covering real-world use cases across frontend and backend
- Independently conceptualized and launched a full brand website (Office Wali Chai) — design to deployment
- Built a live business tool (CyberWorld) solving a real operational problem using Next.js + TypeScript + REST API
- Utilized AI-powered tools to streamline development processes, reduce delivery time, and maintain code quality.
